Final committee action on a project expected by observers here to take its place in history alongside the Monroe Doctrine was In Stock Action completed early this morning, when the peace commission of the conference approved the draft of the convention covering the legal phase of the plan.

Act of Havana

The plan itself, embodied in draft resolution called the "act of and Elliott B. Smoak and Anna Havana," provides that the American republics may establish "regions of provisional administration" in any areas now held by tice William H. Murray and a jury non-American nations which "are but the court later discharged the in danger of becoming the subjury on the grounds the question ject-matter of exchange of terriinvolved was one of law rather than fact and the court reserved tories or sovereignty.

Such administration, which may be put into effect by any one or any group of the American nations if the emergency is too great to permit consultation among all 21 members, would be established only on the understanding that when the emergency passed, af-fected regions would be returned to their original status or organ-15934 Francis Martocci appeared for the ized into autonomous territories.

NAZIS IN SOUTH AMERICA

The Nazi penetration of South America is a thing to be watched and to be reckoned with. The Nazi idea, evidently, is to get such firm control by methods observed only faintly if at all by the countries concerned that when the Nazi regime has conquered nately some of these countries are now alive guilty together. to the danger and have begun to take measures to preserve their own safety and financial grip. Chile, notably, is now coming into open antagonism to the fifth column.

Columbia has recently turned all domestic airlines over to a national company and has retired all German pilots and technical personnel. Pan-American Airways instructors have taken over the operation. It seems to have been quite time this was done. Out of 800 employes, something like 200 were Ger-

The trouble in some countries with this kind of change is that the German airlines have offered cheaper transportation rates. In South America with its inaccessible mountains and jungles, air travel is the most important means of getting from place to place.

It is not necessary to get jittery about these things. Faced with clear realization of the facts, they can be counteracted. But the immense pattern of the German plan must be looked at with seeing eyes.

A SELFISH CITY

Chicago is at it again. So far as the Windy City is concerned the lake-water steal is never a closed subject.

In 1925 the United States Supreme Court ordered Chicago to stop polluting other streams with her raw sewage and to build disposal plants. That job was to be finished in 1938. Thereafter Chicago was to divert far less lake water from the Great Lakes. Chicago fought the curtailment in every possible court, but finally lost.

Now, a year and a half after the time limit set, Chicago is still trying to drain sewage down the river systems to the south and is asking for more water from the international shipway of the Great Lakes for its selfish purpose.

The question will probably be settled again in favor of all the other cities-Canada's and ours-along the Lakes. This time, it is to be hoped a way will be found to enforce the

(Registered in accordance with the Copyright Act.) THE TREATMENT OF DEMENTIA PRECOX

I often wonder what kind of world this would be if the people had no vision or visions (dreams). It would likely happen as we are told that the people would perish. Yet if you or I give ourselves over too much to visions or dreams, we would become "queer"; in fact, we would rightly be called mental cases afflicted with dementia precox or schizo-

their own thoughts. They do not, for the most part, retreat from society because of shyness or selfconsciousness, although most of them are shy, but they retreat because they seem to have a deep seated inclination or inability to enter into the life of the world around them. Thus it is found that before there is any thought by the family or friends

'As the condition advances, we find them living more and more in their own world of imagination, even developing stranger and more absurd fantasies and delusions, until finally, but not in many cases until after the lapse of years, these patients build up for themselves an unreal world in which very often, they spend the rest of their natural lives."

While these schizophrenics may have varying symptoms, the one constant sign or symptom is the tendency to lose interest in the outside world and make up for this by building up an unreal world in which they are comfortable

Physicians are not agreed as to the cause of schizophrenia - dementia precox. Something infection, worry, fear, stress, seems to make these patients try to find a way out of their difficulties or responsibilities. What they have to endure from the fatigue due to infection or continuous tenseness, removes their natural willingness to fight, and so they are unable to do their regular or ordinary work in the world.

Some mental institutions by clearing away infrom responsibilities for a time, get a large percent-

The use of insulin and metrazol in many cases seems to "shock" these patients out of their dreams and bring them back to normal.

Washington - The American Automobile association here is up arms. That isn't all. A lot of railroads. Canadian border hotel managers, and other persons who depend a lot for their livelihood on tourist trade to Canada, have a mad on.

Those reports-that if you cross the Canadian border you can't get back into the United States without a passport, a copy of the Con-stitution, and ability to repeat the Declaration of Independence - have played hob with travel.

The situation became so serious that the AAA sent 15 investigators to border points to get the lowdown. Now they are roaring that there isn't a word of truth in it. The fact that Canada is at war has made some difference, they admit, but not enough to justify the nose-dive that Canadian travel has taken this summer.

The report is that it is a good idea for Americans visiting Canada to have means of identification, but that no specific decuments are demanded. Birth certificates, voting registrations, membership cards-and a heap of patience in answering quesns of immigration officers be-

naturalized citizens who did not have their naturalizations papers, the investigators found. At one key entry point near Detroit, the AAA sleuths found that out of persons re-entering United States during the first five days of July, only two had been turned back. . . .

"When speaking before a party gathering in these modern times, I am happy to realize that the audience is not confined to active members of my own party, and that there is less unthinking patternance is less unthinking patternance in the result that may be desired by the anti-third term Democrat without causing him to vote in the ranks of the opposite party.

This will be criticized no doubt as a disregard of civic duty, but the truth is, the masters of the Democratic party by yielding the protest contributes to the result that may be desired by the anti-third term Democrat without the audience of the result that may be desired by the anti-third term Democrat without that may be desired by the anti-third term Democrat without causing him to vote in the ranks of the opposite party.

Democratic party by yielding to the influence of the governmental machine in Washington deprived the party of its freedom of choice so that only delegates favorable to a third term were picked in a majority of the states. The voter is thus confronted with the necessity of ratifying the action of a convention, which, in the words of Senator Scott Lucas of Illinois, Democrat, was not a "free and open convention," or else expressing his individual protest in the only way open to the anti-thirdterm Democrat who doesn't want to register as a Republican and leave his party.

In the last several campaigns, there have been organized "getout-the-vote" clubs, but this year "stay-at-home" clubs may prove even more conspicuous. The citizen this year is confronted with the necessity of choosing between Republican nominees, on the one hand, or Democratic nominees who have agreed to violate the teachings of the founder of the Democratic party, who, not only when in office, but for many years afterward warned against the

dangers of a third term. Since President Roosevelt, the other hand, considers the boltabout the straight ticket party ing of a ticket to be proper, then tradition. Sandra, on the other hand, enjoyed a great success. Understandably so. She was not only a bride; she was that rarer thing, a bride with a black eye. Perhaps the black eye did not contribute to her popularity, but it certainly brought her attention. She danced with the chaplain several times, and the delicious spectacle of that picturesque pair almost cleared the floor. Couples withdrew to the side lines, the better to observe, or retired from the big living room to the safer obscurity of the hall or the library, there to let loose their laughter.

Raspberries, Huckleberries Popular in All Markets

Albany, July 29.—Plentiful supplies of excellent quality red raspberries on the markets throughout New York state indicate a profusion of home-made jellies and jam not to mention innumberable raspberry shortcakes while the season is in progress, according to the Department of Agriculture and Markets.

Other small fruits available in large quantities include those blue berries popularly known in New York as huckleberries. Reports to the state indicate these berries also are in satisfactory demand by consumers.

Confusion exists in the public mind between huckleberries and blueberries but the department attaches no great importance to this inasmuch as pickers take the fruit from both high and low bushes. That means that the average pur-chaser is getting both huckleberries and blueberries when buying 'huckleberries.

Because raspberries are so frail and can scarcely bear their own weight, the suggestion was made to consumers that they would be more satisfied with their purchases if they bought raspberries in pint boxes rather than in larger containers.

Aside from the time-honored custom of jelly and jam making during the raspberry season, the department said there is reason to believe many persons are using juice from these fresh berries in the making of gelatine desserts, in powdered sugar icings and as

Letter From Democrats

At this point a letter from Chairman Bernard A. Culloton, of the Democratic county commitworking with a Republican Pres- tee, was received by messenger Congressman and read to the convention. The letter asked that the Republican convention keep the judiciary non-partisan and "free from politics" by nominating Andrew J. Cook for county judge. The letter stated Democrats would also name Mr. Cook, who was named by Governor Lehman on June first to fill the vacancy caused by the death of Judge Frederick G. Traver.

Other Candidates

The name of George J. Mutari of Saugerties as a candidate for congressman was presented to the convention by Walter Donnaruma, who described the Saugerties man as one "who knows our Hudson valley."
The name of N. Jansen Fowler

was presented to the convention by former Supervisor Ross K. Osterhoudt and the seconding speech was made by Joseph Alfano of Marlborough.

In a brief speech Mr. Fowler pointed out that a Democrat is "under a handicap running in this county, because there are a great many more enrolled Republicans than Democrats." He said he felt, however, that there are enough independent voters to swing any election and "we must direct our attention to them.

Joseph Campbell, Saugerties attorney, presented the name of Eugene F. Thornton of Sauge ties, as candidate for treasurer. Thornton, he said, has been named tax collector in Sau gerties, despite the fact that the village normally shows a large Republican majority. His dutie as tax collector, he said, qualified Mr. Thornton to run for the office of county treasurer. The nomination was seconded by Clarence Hornbeeck, of the town of Wa-

The name of Dr. Orrin M. Robbins of Ellenville was presented by Charles E. Gradwell of Woodstock and seconded by former Supervisor Herbert George of the town of Denning. Mr. Gradwell in his nominating speech stressed the point that a physician as coroner would save the extra need of calling a doctor to assist in the functions of that office.

Philip McDonald of Kingston presented the name of Robert Donnaruma as the other candidate for coroner, stressing the point that it was important to the City of Kingston to have a cor-oner there. The nomination was seconded by Martin Munnelly of Port Ewen who with Edward P. Kuehn of Kingston, was named to escort the candidate to the platform.

Sports Roundup

New York, July 29 (A)-Ramblings from the resin route: Johnny Ray, manager of beauteous Billy Conn, better quit hollering for a shot at Joe Louis till he gets his boy past Pastor. . . . One of the judges who voted Billy Soose that decision over Ken Overlin in Philly—in the rain. . . (No quips about 'em being all wet, please) . . . New Orleans papers are dusting off their brightest adjectives for Harry Weekly, a lightweight comer.

berry is still doing a swell pitching job down Fort Worth way. . . They're expecting 45,000 at Goshen for the Corn Tassel Derby Chambletonian, to you! . . Because of the war, England's greyhound breeding will be shifted to Bermuda. . . Babe Pratt, Alex Shibicky and Al Collings of the New York Rangers hockey team have enlisted with the Royal Winnipeg Rifles. . . . Anybody need a good first-baseman? Here's 20-year-old Buck Etchinson of Welch in the Mountain States League, whose .408 batting average is the real McCcy.

Today's Guest Star

Andy Cates, Winston-Salem Journal: "The gals may meet the guys on equal footing at the cocktail bar but no amount of emancipation will bring them up to men's level on the golf links. . . . It's thoughts like these that buck up the poor male when he reflects upon this rapidly disintegrating 'man's world."

Look Whose Hollering!

Thanks to the debate team, William Jewell College's football team will take an honest-to-gosh trip this fall, meeting Wake Forest. The debaters got so many long trips the pigskin punishers (who only got whistle stops) hollered "overemphasis," and to quiet 'em, the Wake Forest game was arranged!

Short takes: The Tulane Stadium is being used as a barn these days for the horses Coach Red Dawson absent-mindedly bought at that Baton Rouge auction. . Johnny Cooney, the 39-year-old Boston Bees outfielder, is having quite a time living up to the farnily reputation. His pappy was a star on Pop Anson's team and his son is a star at Sarasota High School. . . . Manager Billy South-worth of the Cards told the kids at the World's Fair baseball school "love of the game" is the most important point in seeking a baseball career. . . . All those tourists headin' south are coaches anxious to hear what Wallace Wade and his "faculty" at the Duke coaching school, have in store for 'em.

One of the subjects not dis-cussed around the Red Sox club office or in their dugout in Boston is Peewee Reese, Brooklyn's specton fans continue to ask how this promising kid, called by some the rookie of the year, managed to elude the Red Sox when he was the property of the Louisville Colo-nels, a club controlled by Tom

NOPE, THE RUNNER'S OUT AT THIRD

All this slid g and scowling added up to a neat putout at third in the first game of a Cardinals-Dodgers twin bill in New York. The Casey, losing pitcher in the 4-2 game. Don Guttridge, Cards' infielder, is stretched out after putting the ball on Casey for the out. The mournful figure wearing No. 2 is Manager Leo Durocher of the Dodgers. Umpire is Reardon.

Ed Wallace Wins Again As Saugerties Triumphs

Young Pitcher Gives Five Hits Before His Injury in Eighth; Kingston Recs Not Scheduled

The Saugerties A. C. trimmed the rain at Scranton also judged the fast-stepping Castleton Ferns the first Dempsey-Tunney fight in Sunday afternoon at Cantine's Memorial field as Eddie Wallace turned in another pitching feat, giving up but five hits.

It was reported in this paper Saturday that Carl Husta's Kingston Recs were to play Sunday against Saugerties. When reached that evening Manager Husta was unaware of the game. After going ahead in the third Saugerties saw its land wiped out as Castleton came back in the

In the eighth "Bing" Van Etten bunted in the deciding tally while Blizenski was hurling for the Ferns. Eddie Wallace was injured in this same frame while sliding into third base and had to retire. Rosenstein came in and kept the powerful Ferns in check for the balance of the game.

Wednesday evening at Sauger-ties the local team will meet Spike Van Alstyne's Hudson Whalers in a twilight game. Saugerties opened the week-end activities by trim-ming Schenectady General Elec-trics, 7 to 4. "Rosy" Rosenstein hurled for the village club, avenging his recent setback at the hands of the G.E. club.

Softball Notice

All St. Mary's softball players are requested to meet at the school hall Tuesday evening at 6 o'clock for the Presentation game at Port Ewen. The game will open the second half of the Catholic League. All new members are requested to meet at the school also.

Point Stars Win

The Kingston Point Stars de feated Phoenicia Sunday afternoon by the score of 13 to 5 on the mountain diamond. The Bruins will play Bogotiva Sunday afternoon on their field. Game time is 3 o'clock.

Bucky Walters' versatility is not confined to the diamond. The tall Philadelphian who turned from his job of major league third-baseman to become the National League's most-valuable-player as a pitcher was most famous in his youth as a basketball star. He arrived as a big leaguer in the court game 3 years earlier than his debut in the majors as a baseballist.

CAN A WIDOW BRIDE AND A MAIDEN BRIDE, WHO ARE SISTERS, HAVE A DOUBLE

Emily Post Suggests How Unusual Situation Can be Handled-Conventional Invitations for Girl Marrying First Time

Although the unusual wedding problem described to me in one of today's letters presents certain difficulties, it seems to me that they can quite easily be overcome. But first, to repeat the letter:

"Is it possible for a widow bride and a maiden bride to have a dou-ble wedding? I have been a widow for five years, but am only twentyseven. My sister, who is two years younger, is to be a bride for the first time. Since we are both engaged, she thinks it would be lovey (and means it) if we could be married at the same ceremony. Our parents would be very pleased daughter of Mr. and Mrs. Emil H.

MARIAN MARTIN

PATTERN 9449 If you like simple, straightforward style enlivened with a touch of novelty, stop right here! This Marian Martin shirtwaister—Pattern 9449—may carry a gay sur-prise in vertically slashed pockets that are amusingly shaped to hold not much else but fashion interest. The frock is softly tailored, with a back panel in the skirt, long or short sleeves, and a wide, pointed young collar. Light-hearted trimming suggestions are buttons, a ribbon bow and double rows of ric-rac. You might have the collar and optional sleeve tabs and pockets all in cheery contrast. Choose a gay-colored linen, cotton or spun

rayon for this sprightly frock.
Pattern 9449 may be ordered only in misses' and women's sizes 14, 16, 18, 20, 32, 34, 36, 38, 40 and 42. Size 16 requires 3% yards 35 inch fabric.

Have you seen this Chart at Gulf Stations?

IT SHOWS THE TREMENDOUS IMPROVEMENT IN GULF GASOLINES!

HIS CHART, we hope, will give you a better picture than could a thousand words of the recent amazing improvement in Gulf gasolines. It is based on a scientific test of gasoline quality today-a test that is used by many of our competitors, as well as by ourselves. The chart shows the fair comparative measure of step-up in both GOOD GULF and GULF NO-NOX . . . a stepup which is no intangible "engineering triumph" but one which may be enjoyed by you : : : in your car!

Good Guif is now boosted to its all-time high
